Henry A. Vanover  
Attorney at Law  
P. O. Box 907  
Chase Street  
Clintwood, VA 24228

Dear Mr. Vanover

I met with Charlie and Martha Musick on May the 7th, 1998, to discuss the 33 AC mineral track (Card #17383) and the 116.21 AC mineral track (Card #16170).

Martha Musick obtained the Upper Banner seam only on the 116.21 AC track and surface rights only from Pegasus Resources. Pegasus retained all of the other seams.

Martha Musick owned all the 33 AC mineral track seams, but traded the below drainage seams on this track to Pegasus for the 116.21 AC track, (Upper Banner Seam only and surface rights). These surface rights go across the 116.21 AC track, through the old mines of the Upper Banner Seam, to get to a 79 AC Phipps mineral track that Martha Musick wanted to deep mine. After this trade was made, Martha Musick could not get through the Upper Banner Seams on the 116.21 AC track because these seams had been pillared out the rest had fell in. However, sometime in the late 1980's, Squirrel Camp Coal Corporation got a permit with the Division of Mines and used a remote control miner to go around the 116.21 AC Upper Banner track. Martha Musick, did not, however, give Squirrel Camp Coal Corporation permission to do this.

Charlie Musick contacted the Division of Mines and asked why this was approved. They in turn provided Mr. Musick with copies of maps and letters from the Division of Mines and letters from Squirrel Camp Coal Corporation. I am enclosing this information for your records.

In my opinion, there is not any coal left to be mined on the 116.21 AC Upper Banner Seam or the 33 AC mineral track of the above drainage seam. The 33 AC above seams were mined by Rex Owens in the 1940's. I am therefore deleting Card #16170 and Card #17383, in the name of Martha Musick, Rt. 2 Box 310A, Cedar Bluff, Virginia 24609.

Sincerely

A handwritten signature in cursive script that reads "Ronnie L. Robbins".

In reference to the question of Squirrel  
Camp Coal mining coal on their permit  
without a lease on two tracts of land:

① The land on Charlie Musick is owned by  
Pegasus - I had a verbal agreement, sometime  
in 1987 with Charlie, that Squirrel Camp  
could mine his coal without royalty being  
paid - if Squirrel Camp would not charge  
wheelage on coal that he planned to deep mine.  
Charlie and I agreed to leave one area on his  
coal so that a deep mine could be put in  
operation - I left approximately a 300' area  
for development of a deep mine. Charlie and  
Max Bailer even talked to me about the  
mining of some of their coal that they were  
developing in Jagerwell or Russell counties.  
Charlie Musick's coal is outlined on map  
in red.

The previous statements are, to the best of my knowledge, accurate in every detail. It is difficult to remember exact dates, all of this happened over three year ago.

I feel that I was in compliance with all laws and regulations at the time of mining.

Mining Eng. Service was the company that did all the engineering for Squirrel Camp. - if I was in error I'm sure that they would have informed me - also that both Charlie Musick and Mr. Fletcher would have lodged a complaint at that time.
